Dear Parents and Carers

Supporting Your Child's Maths Learning

At Spurcroft we are committed to ensuring that every child has the tools and resources they need to succeed in their learning journey. To help strengthen the partnership between home and school, we are introducing a few new measures to support your child's progress in maths.

Firstly, we will be sending home maths workbooks and test papers when they are completed. This will give you an opportunity to review your child's progress and discuss their work with them. We encourage you to use this as a chance to talk through any areas they feel confident in, as well as areas where they might need extra support.

Additionally, to support pupils who are absent from school, we have started sharing links to videos that cover the key concepts taught in their missed maths lessons. These videos are designed to help children stay on track with their learning and feel prepared to engage fully when they return to the classroom. Watching these videos and discussing them with your child can make a significant difference in ensuring continuity in their learning.

We greatly appreciate your involvement and support in your child's education. If you have any questions about the resources or need further guidance, please do not hesitate to contact the school office or your child's teacher.

Thank you for your continued partnership in helping our pupils thrive.

Yours sincerely,

K Flowerdew
